

ALL-IN-ONE **PAYMENT SOLUTION** **FOR UNATTENDED RETAIL**

Designed for MDB/VCCS vending and Pulse machines,
150,000+ installations worldwide

01 ABOUT AURENCY

- All-in-one ecosystem for vending & unattended retail, operating in 16 countries
- 150,000 machines worldwide already use Aurency
- Works with 150+ machine models — including yours

02 WHY VENDING OPERATORS AND DISTRIBUTORS CHOOSE AURENCY

01 Affordable hardware & transaction fees

Aurency delivers up to 50% cost reduction compared to traditional payment solutions.

02 Simple & ready-to-use

Transform any machine into a modern cashless operation in minutes, even those legacy units you were told were "impossible" to upgrade.

03 All-in-one solution

Stop juggling multiple vendors and systems — one device replaces your entire payment infrastructure and eliminates integration headaches forever.

04 Bespoke customer support

When your machine goes down, every minute costs you money — our engineers respond fast because your downtime is our emergency.

04 ALL-IN-ONE SOLUTION

A250 Card Reader

A portable and powerful contactless payment device that accepts debit/credit/prepaid cards, mobile NFC, and QR-based payments on any machine.

Processing

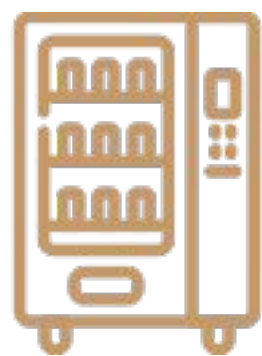

Built-in payment processing with competitive rates starting at 1.85% per transaction, eliminating the need for separate payment processors.

Telemetry

Integrated telemetry and VMS, with real-time sales data. Know exactly which machines are printing money and which ones need attention before they cost you sales.

05 APPLICATIONS

Vending machines

Car washes

Arcade

Water dispensing

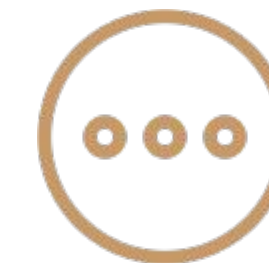

Micro markets

Gas / EV stations

Other

ENHANCE YOUR BUSINESS
WITH AURENCY

07

REDUCE EXPENSES & SIMPLIFY OPERATIONS

✓✓ End-to-end solution

One contract, one invoice, one point of contact — we handle everything so you can focus on growing your business.

% 1.85% starting rate for transaction

While others burden you with hidden fees, we deliver transparent pricing that actually saves you money.

🎧 Basic fee from 6€ for support and TMS

For less than the cost of a coffee, keep your entire operation running like clockwork with 24/7 support.

08

UNLOCK **MORE REVENUE** WITH **ADVANCED** **PAYMENT TECHNOLOGY**

All payments methods

Never lose another sale because someone "doesn't have the right payment method" — we accept them all (including contactless cards, mobile NFC payments, and QR codes).

Fast & Simple transactions

Turn impatient customers into repeat buyers with transactions so fast they'll come back just for the convenience.

Insights & Analytics

Stop guessing what's working and start knowing exactly where your next profit opportunity is hiding.

09

RELIABLE **SUPPORT** YOU CAN TRUST

Support 7 days a week

When your machines stop making money, we don't stop working — get expert help any day of the week to minimize costly downtime.

1 year warranty

Free replacement instead of repair within 1 year

Online status updates

Stay ahead of problems with real-time alerts on TMS portal. They let you fix issues before they turn into lost sales and angry customers.

We know how frustrating it is when something stops working in your machine and support is slow or unresponsive, costing you time and money. We are not like that.

AURENCY A250 CARD READER

Contactless card reader and telemetry device featuring NFC and QR payments

Dimensions: 75 x 82 x 22 mm

Weight: 92 g

Power supply: 5 - 40V, 2A

Beeper: 3 kHz

Screen: 2.4", 240x320 (touch-screen)

11 TECH SPECS

Interfaces

- MDB, UART, NFC, LTE
- Optional: USB , RS232, WiFi
- Converter for VCCS machines

13 PRE-INTEGRATED WITH TELEMETRY

In collaboration with Ardelino, a leader in self-service machine monitoring software, we've pre-integrated the VPOS device with their platform.

- Catch problems before they cost you sales with real-time monitoring
- Eliminate surprise downtime with instant problem alerts
- Monitor sales, stock, and other statistics
- Manage cash collection and change
- Manage inventory and save service time with pre-kitting

14 CONVERT VCCS MACHINES TO CASHLESS

Upgrade without replacing with Aurency VCCS-to-MDB converter. Install any card reader on your existing VCCS machines, easily and affordably.

01 COST-EFFECTIVE

Keep your existing machines and boost revenue with a simple upgrade.

02 FAST INSTALLATION

Start generating revenue in under 24 hours with zero rewiring or reprogramming required.

03 UNIVERSAL COMPATIBILITY

Works with top vending brands:

- Fuji Electric
- Sanden
- National
- Sanyo
- Royal Vendors
- and others
